About the book

The "Malaysian Civil Procedure and Practice" highlights the procedural rules relating to civil practice and procedure. The chapters in this book come with several distinctive features and are well-explained in a clear and direct language. Each topic is accompanied with court forms and precedents which set out the manner a form is to be drafted applying the procedural rule and applicable law. A flow chart and a useful tool known as "Learn Through Questions" series is provided at the end of each chapter, as a guide for readers to have a clearer understanding of the procedural processes applied in court. Practitioners, students and those involved and interested in the Malaysian civil court justice system would find this book as a useful tool.
